3.1	GEOGRAPHIC	The map is available in the following link:

	EXTENSION OF EETS DOMAIN (art. 6.a of Commission Decision 2009/750/EC)	http://www.aodos.gr/default.asp?catid=36637
3.2	NATURE OF TOLL AND LEVY PRONCIPLES (art. 6.b of Commission Decision 2009/750/EC)	The applied system is an open toll system with a flat toll rate charged per vehicle category irrespective of the distance travelled. The toll rate (exclusive of VAT) cannot exceed the Upper Contractual Toll Limit as defined in the Concession Agreement and as it is readjusted during the Exploitation period (Art. 50.2 of the Concession Agreement). The VAT is added as foreseen in the Greek law. The toll stations are located in the motorway entrances (4 Frontal Toll Stations and 35 Ramp Toll Stations). The electronic lanes are equipped with bars that open only when the transponder has a satisfactory balance.
3.3	VEHICLES LIABLE TO TOLL (art. 6.c of Commission Decision 2009/750/EC)	All vehicles that enter the motorway are subject to toll payment with the exception of the following vehicle categories as defined in the Concession Agreement (Art. 50.2): <ul style="list-style-type: none"> a. Vehicles of Project Owner's representatives vested with the exercise of supervision of the Contract, or part thereof, provided that they are on duty related to this purpose. b. Hellenic Police vehicles. c. Fire Brigade vehicles. d. Hellenic Armed Forces vehicles. e. Ambulance.
3.4	VEHICLE CLASSIFICATION PARAMETERS AND TOLL RATES (art. 6.d of Commission Decision 2009/750/EC)	http://www.aodos.gr/default.asp?catid=37749 Various commercial packages with toll discounts are available for the subscribers of Attiki Odos and they are subject to the commercial policy as defined by the Concessionaire.
4	EETS DOMAIN STATEMENT (art. 19.1.a and Annex I of Commission Decision 2009/750/EC)	The EETS Domain Statement is common for all G reek I nteroperable T oll S ervice (GRITS) members and includes commercial and technical information to be taken into account by EETS Providers, in order to enter into agreements with Toll Chargers who provide interoperable services through GRITS in the relevant EET domains.
